Profile

Motivated undergraduate Biotechnology student with strong interest in software development and web technologies. Hands-on experience in Java-based systems and full-stack application development. Interested in building scalable, reliable software systems and working on technology-driven products.

Education

Bannari Amman Institute of Technology

B.TECH Biotechnology, 2023 – 2027
CGPA: 7.28 (Upto 6th Semester)

G V Higher Secondary School, Mettur

2021
Class X (SSLC) - 100%
Class XII (SSLC) - 80.5% 2023

Technical Skills

Programming Languages: Java, JavaScript, C, Python

Core Computer Science: Object-Oriented Programming.

Web Technologies: HTML, CSS, React, Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Concepts: Git, GitHub, Vercel, Netlify, Render, Atlas

Projects

Corporate Website for Beverage Company

Tech Stack: HTML, CSS, JavaScript, API Integration, Vercel (Deployment)

- Designed and developed a responsive corporate website showcasing products, brand identity, and company services with modern UI/UX principles.
- Integrated customer engagement features including contact form, AI-powered chatbot, and flavor recommendation functionality.
- Deployed the website on a cloud hosting platform ensuring mobile responsiveness and smooth user experience.

Employee Attendance Management System

Tech Stack: React.js, Node.js, Express.js, Python, MongoDB

- Developed a web-based attendance tracking system to automate daily employee attendance recording and monitoring.
- Implemented secure login authentication with admin dashboard for managing attendance records and generating reports.
- Improved operational efficiency by reducing manual errors and enabling structured digital record management.

Soft Skills

Project Management | Team Collaboration | Time Management | Leadership | Critical Thinking | Communication

Certifications

- Successfully completed the TCS iON Professional Certification, gaining strong knowledge of workplace skills and professional ethics. 2024
- Achieved 100+ contributions on GitHub through consistent project development, feature updates, and code improvements.
